

exception

```
classDiagram
    class exception {
    }
    class DexException {
        +DexException()
        +what()
        +bruh()
    }
    exception <|-- DexException
```

The diagram consists of two class boxes. The top box, labeled 'exception', is white with a black border and is divided into three horizontal compartments. The bottom box, labeled 'DexException', is gray with a black border and is divided into three horizontal compartments. The top compartment of the 'DexException' box contains the class name. The bottom compartment contains three method signatures: '+ DexException()', '+ what()', and '+ bruh()'. A red arrow with an open triangular head points from the top of the 'DexException' box to the bottom of the 'exception' box, indicating inheritance.

DexException

+ DexException()
+ what()
+ bruh()
